

Cat collar instructions:

1. Cut along this dotted line to separate the collar from the instructions.
2. Now, fold this into quarters along the two dotted lines (labelled 'fold here'). This will allow you to make two simple cuts to remove the collar ring from the page.
3. With the page still folded into quarters cut along the two curved lines to extract the collar ring from the page.
4. Now, cut the ring at point 'A', to produce a band.
5. Trim carefully around the collar end.
6. Take a rough measurement of the cat's neck with the band taking note of the nearest oval to the collar end. (Ideally, the fitted collar should allow for two fingers to be placed between the collar and the neck).
7. Carefully cut out the chosen oval.
8. Leaving one inch spare trim off any excess collar length.
9. Write your name and telephone number on the collar.
10. Fit the collar to the cat by feeding the collar end into the cut-out oval.
